
Learned velocity field (arrows, grey = speed) and one-step prediction from t = 1 to t = 2
(a) OT-chained spline paths energy distance -0.008
(b) random chaining energy distance 0.169
gene 2 (toy coordinate)
gene 1 (toy coordinate)
gene 1 (toy coordinate)
cells at t = 1 (start)
truth at t = 2 (held out)
prediction at t = 2
